

## Peoples Baptist & Federal Elementary Schools

Detroit Metropolitan Wayne County Airport

### Summary Scope of Work:

Jones Payne served as Acoustic Design Consultant for the acoustical upgrades to the Peoples Baptist and Federal Elementary Schools in Detroit, Michigan. Jones Payne prepared the existing conditions documents as well as the preliminary design report. Acoustical upgrades included improvements to the roof and ceiling assemblies through added mass and absorptive materials, and the replacement of existing exterior window and door systems with acoustically rated products. Administrative offices, classrooms and various resource centers received additional noise reduction treatments. In addition, mechanical and electrical systems were replaced to provide sufficient ventilation and air conditioning. Hazardous materials were identified and removed, in accordance with EPA and state standards.

Construction Cost: \$1,500,000  
 Construction Completion: 1995
